

JumpStart your Workforce

IMPACT

PROJECT  JUMPSTART™

JumpStart your Project

What is Project JumpStart?

Project JumpStart is a workforce and job-placement program that focuses on preparing its participants for careers in the skilled trades. Since its inception in 2006, PJSI has supported 1,200+ individuals find long and fulfilling careers in the construction industry.

What is IMPACT Project JumpStart?

"Project JumpStart introduces IMPACT Project JumpStart, a new range of services aimed at sharing expertise, expanding outreach, and supporting employers. The proceeds from these initiatives are reinvested into Project JumpStart programming in Baltimore City."

JumpStart your Project

Forward-thinking organizations are enhancing employee skills with robust, job-specific training programs. Project JumpStart Training is a key recruiting and vetting tool that can complement any formalized employer training. Additionally, PJSI offers custom curriculum adjustments to further align our curriculum to those on-the-job programs.

How it works:

1. Schedule a Meeting
 - a. Coordinate a time to meet with the team and share details of the curriculum you need to implement.
2. Review and Proposal
 - a. Our subject matter experts will review your request and develop a proposal for a customized curriculum that supports further skill development on the job.
3. Contract Signing
 - a. Once the contract is signed, we will collaborate closely with your team to create a tailored version of the Project JumpStart program that aligns with your specific needs.

A Proven Model

Project JumpStart is a proven industry model for workforce development, at a time when infrastructure and a reckoning with the dismantling of systemic poverty through economic equity efforts are both at a level of critical importance in our county.

87 hours of training

Including hands-on projects, construction math and measurements, First Aid/CPR certification, and OSHA-10 (a construction safety course).

Individualized Support

Individuals have access to a powerful network of services and partners, including: case management, barrier resolution (*such as transportation*), and financial education/literacy and job placement services.

Employer Resources

We act as your recruiting arm to provide job-ready candidates with ongoing support services (see above) to ensure successful onboarding into the organization. Additionally, gain access to resources for frontline supervisors and build a stronger team.
